

Interactive Display of Population Copy Number Variation Data

Susan Vanderplas, Dianne Cook, Michelle Graham

August 25, 2014

Abstract

Some impressive-sounding description should go here eventually...

1 Rationale

Explain advantages of interactivity, etc. and magnitude of the data

2 Applet Design

Describe different tabs in the applet, explaining the CNV methodology in minimal detail?
Discuss the inclusion of genetic data and phenotype information (for reference purposes).

3 Biological Perspectives

Describe ways the biologists can use the applet for inference.

4 Conclusions
